

FREE Asthma Control Packs

Attention General Practice Surgeries

The Asthma Foundation of SA (AFSA) is giving away **FREE Asthma Control Packs** to people with asthma and their carers providing them with useful and relevant information on asthma management.

The AFSA will be visiting 600 doctor's surgeries/health clinics over the coming weeks distributing Information Packs, these packs include: **Posters, Asthma Emergency Cards, AFSA Brochures and Course and Program Information for Health Professionals.**

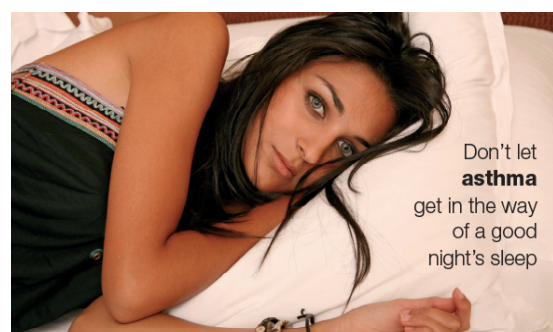

Please support our mission to help people breathe better by:

1. Distributing this email widely especially to the General Practice Managers
2. Display the poster in your surgery which encourages patients to register online for their **FREE Asthma Control Pack.**
3. Distribute the Asthma Emergency Cards to patients with Asthma and refer them to the Foundation's website www.asthmasa.org.au for their **FREE Asthma Control Pack** - and encourage them to take charge of their asthma.

If your Practice does not receive an **Information Pack** by May 14th 2009, please contact the Foundation and we will post one out to you. In the meantime, look out for the posters, postcards and Asthma Emergency Cards and display them as soon as possible!

Examples of the posters being delivered to your practice:

“ When I have an asthma attack I feel like a fish with no water ”
Harrison, aged 5

Do you know what to do in an asthma emergency?
Asthma First Aid Training - it only takes one hour and could save a life. Book Now!
