Practitioners in the alcohol and other drugs sector work in a dynamic and ever evolving field, with the challenge of responding to an increasingly diverse and often complex client group. The Adelaide Lakeside Symposium will offer participants presentations from experts in their field on current research findings and responses to client groups. The Symposium will also offer participants the opportunity to build networks to further the exchange of research, knowledge and practice.

PRESENTATIONS

The Buprenorphine-Naloxone Wait List Study

Dr Adrian Dunlop, Director, Drug & Alcohol Clinical Services, Hunter New England Area Health Service and Conjoint Associate Professor in the School of Medicine & Public Health, Faculty of Health, University of Newcastle, NSW.
