Dear Colleague,

This year's Rural GP Anaesthetic Refresher Course will take place on 9th and 10th September 2010 at the Lyell McEwin Hospital.

It will consist of a series of lectures, case discussions and a surgical airway workshop.

The evening session is very topical "Coastal Warming and Anaesthesia" in which we are very privileged to have Emeritus Professor (University of Adelaide) Martin Williams as the speaker. I have been told he is very entertaining.

The Course has been accredited for CPD points by ACRRM and the RACGP. Attending GPs are also able to claim the Procedural Skills Training grant.

Registration for the course is enclosed. Please indicate as to whether you and your partner will be attending the dinner. This needs to be done as to have correct numbers on the night, partners are most welcome. The last dinner was enjoyed by all who attended.

If you have case presentations that you would like included could you forward details at the time of registration. Also if there are any specific issues you would like to discuss at the forum please contact me.

If you have any queries in regards to this or any other matter please don't hesitate to contact me or the department's admin officer – Ms Deb Bond on 81829806 or email on deborah.bond@health.sa.gov.au.

The refresher course has proven to be a good opportunity for all to meet, discuss concerns and investigate new ideas and equipment. Various Health Care industry reps will be available.

Many thanks

Dr Andrew Michael
