Aim

These conferences bring together health professionals that work across the acute care sector and general practice setting to provide opportunities to share stories, successes, failures and new initiatives.

Theme

Discharge letter, Separation summary or Transfer of care. Whatever it is called without this crucial document the care of our patients as they move from hospital to the community is compromised. In South Australia we have achieved a 70% completion rate within 48 hours of discharge. Is this good enough? What is your state doing? Come and hear what the best performing regions and hospitals in Australia are doing to improve their communication with GPs.
